

QHSE POLICY
(Quality, Health, Safety and Environment Policy)

NEOGEN CHEMICALS LIMITED aims to attain and be in premier position among all manufacturers and suppliers of Bromine intermediates through focused performance and practice on customer satisfaction and QHSE parameters.

We strive hard to enhance customer, interested parties' satisfaction by understanding their current and emerging needs timely delivery of our goods and services, focused and dedicated attention to the technological up-gradation of our processes and assets together with attention to the stringent adherence to our Quality, Health, Safety & Environment systems, standards and practices.

We are committed to achieve our above goals by:

- Protect the environment, prevent pollution, and reduce the impact of biodiversity through conservation of natural resources, reduce / recycle / reuse waste wherever possible, adopt latest technology, control the impact of local pollution and implement a product life cycle approach across the entire supply chain.
- Inculcating in our employees, contractors, and in other stake holders, the importance of our QHSE system, Safe work culture and GMP practices.
- Compliance to all Legal and Regulatory requirements relevant to our industry.
- Continual improvement of our IMS system.
- Provide safe and healthy working condition for the prevention of work-related injury & ill health of all interested parties by; controlling and eliminating hazards, reducing health & safety risk, enhancing awareness through training, communication, motivation, and their consultation & participation where they exist.
- Designing our Performance Management System to reflect and reward individual and team's performance in areas of Quality, Health, Safety and Environment, while considering career advancement.
