Sub.: Earnings Presentation on the Audited Financial Results of the Company under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Dear Sir/ Madam,

With reference to the captioned subject, please find enclosed herewith the Earnings Presentation on the Audited Standalone and Consolidated Financial Results of the Company for the quarter and year ended March 31, 2022.

The Audited Financial Results for the quarter and year ended March 31, 2022 and the Earnings Presentation are also being uploaded on the Company's website at <u>www.neogenchem.com</u>.

Kindly take the same on your record.

Thanking you, Yours faithfully, For Neogen Chemicals Limited

Unnati Kanani Company Secretary and Compliance Officer Membership No. A35131

Neogen Chemicals Ltd.

Q4 & FY22 Earnings Presentation May 2022

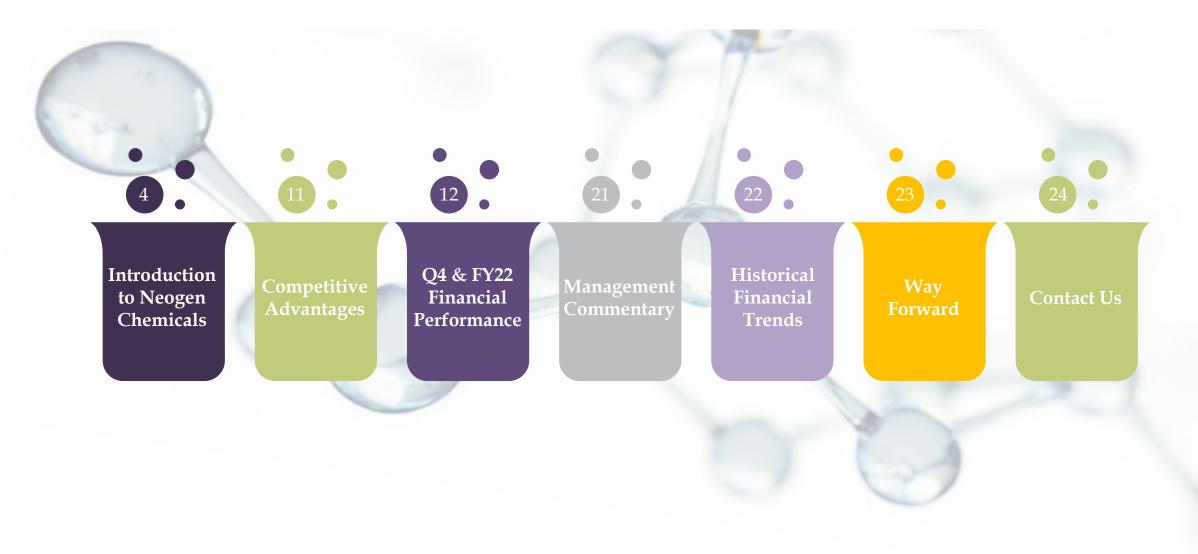

Safe Harbour

Certain statements in this document may be forward-looking statements. Such forward looking statements are subject to certain risks and uncertainties like regulatory changes, local political or economic developments, and many other factors that could cause our actual results to differ materially from those contemplated by the relevant forward-looking statements. Neogen Chemicals Limited will not be in any way responsible for any action taken based on such statements and undertakes no obligation to publicly update these forward-looking statements to reflect subsequent events or circumstances.

Table of Contents

Neogen Chemicals – At a Glance

Leading manufacturer of Bromine and Lithium-based specialty chemicals, operating since 1991

Strong portfolio of Organic and Inorganic products

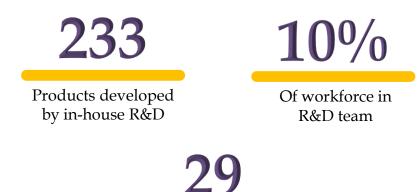

Customers across multiple industries including Pharma, Engineering, Battery Chemicals and Agrochem

Key export geographies include USA, Europe, Japan and Middle East

Growing contribution from Custom Synthesis and Contract Manufacturing

Promoters are pioneering technocrats with substantial domain expertise; cumulative experience of more than six decades

Developed strong R&D capabilities with dedicated in-house team

Exporting countries

ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018

Manufacturing units certified on Quality & SHE management systems

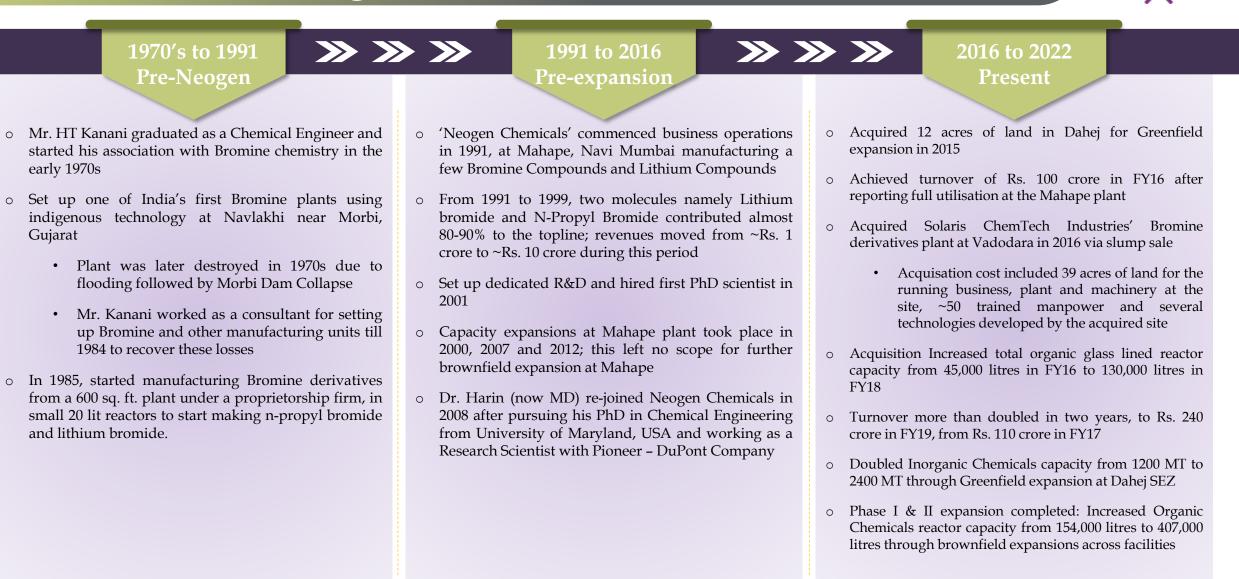

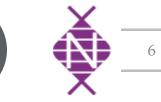

5-year Revenue CAGR

5-year PAT CAGR

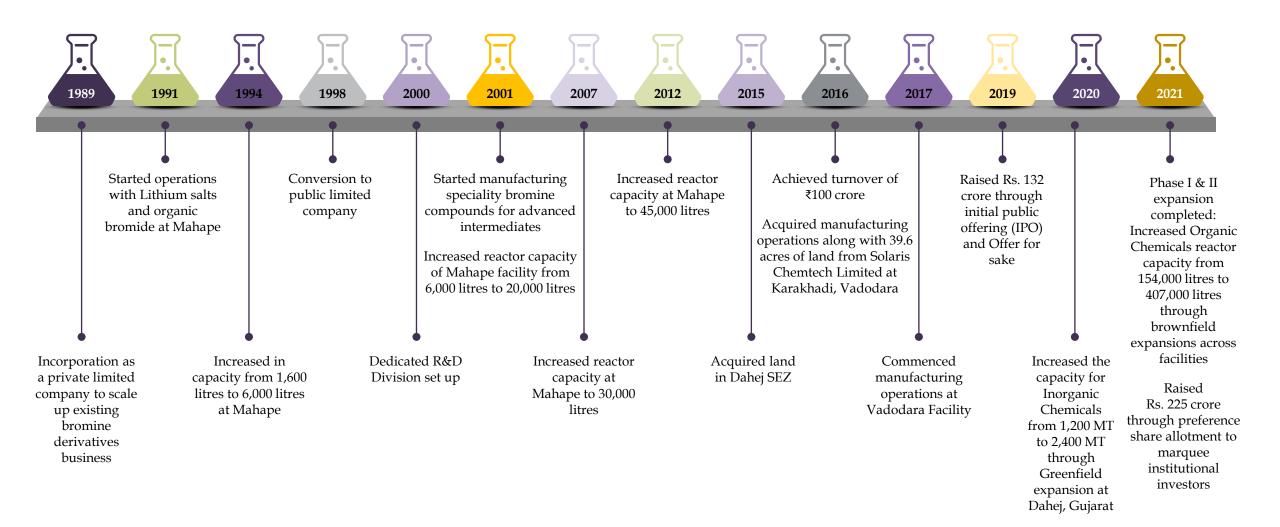

Evolution of Neogen Chemicals

Key Milestones

Leading manufacturer of Bromine and Lithium-based specialty chemicals since 1989

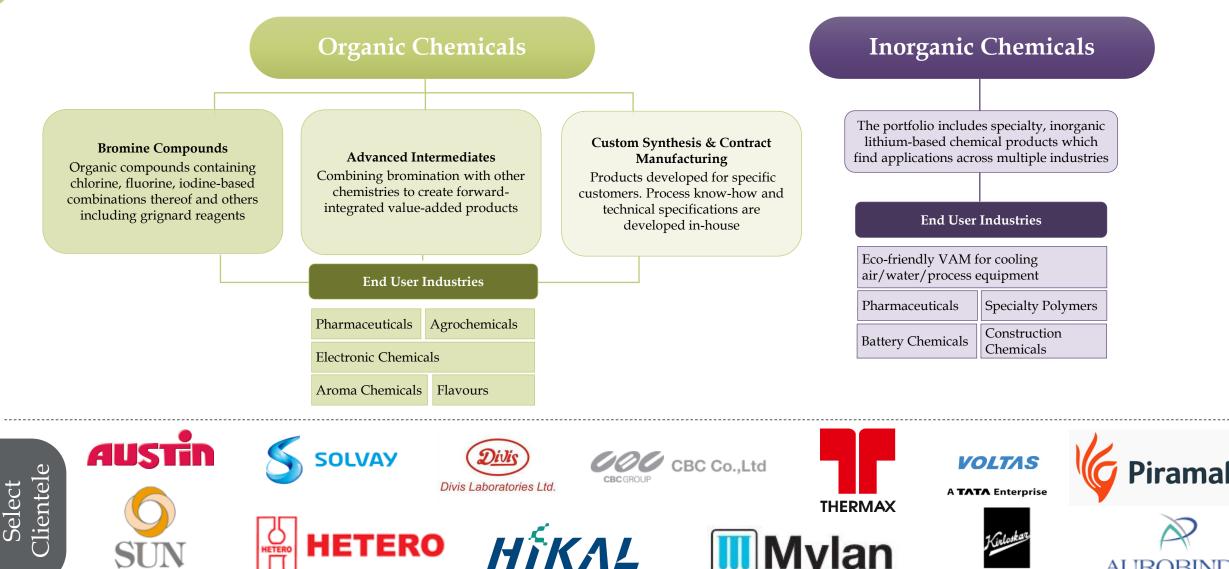

Business Overview

AUROBI

Enriching Lives

Robust Manufacturing Expertise

Strong Manufacturing Infrastructure -

Factory	Land Area	Land Utilisation	Capacity	
			Organic Chemicals (Reactor capacity)	Inorganic Chemicals (Tonnage)
Mahape (Since 1991)	1 acre	100%	69,000 Liters	1,200 MT
Vadodara (Since 2017)	40 acres	20%	1,11,000 Liters	-
Dahej (Since 2020)	12 acres	20%	2,27,000 Liters	1,200 MT
Total			4,07,000 Litres	2,400 MT

У

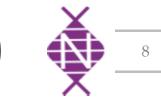

Quality Control and Quality Assurance

Dedicated QC and QA team in place monitoring the entire manufacturing process at all stages right from initial testing stage to the final product

Certifications of Manufacturing Facilities

- Mahape Facility ISO 9001:2015 from Bureau Veritas Certification Holding SAS
- Vadodara Facility ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 certifications from Bureau Veritas Certification Holding SAS
- Dahej Facility ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 certifications from Bureau Veritas Certification Holding SAS. Also, GMP (Good Manufacturing Practices) certified
- Implemented current good manufacturing practice (cGMP) prescribed by the US FDA as applicable for intermediates

Developed strong R&D capabilities

Established two in-house R&D units, one each in Mahape and Vadodara, with an endeavor to develop new processes and improve existing processes Developed 46-member dedicated R&D team, including 8 senior personnel with doctorates in chemistry (Ph. D.) from reputed institutions and with 15+ years of experience Believes that **R&D is critical for sustained growth** and will continue to deploy resources to further strengthen R&D infrastructure to take advantage of upcoming opportunities

CMD and MD are actively involved and spend significant time overseeing the functioning of both R&D divisions Post commissioning of dedicated R&D units in 2001, the product portfolio has grown from 20 products in 2001 to 233 products in Q4 FY22 (excluding products developed under contract manufacturing)

Experienced Leadership Team

Mr. Haridas Kanani, B.TECH (CHEM) M.I.I.Ch.E. Chairman & Managing Director

- Holds a bachelor's degree in chemical engineering from the Indian Institute of Technology (IIT), Bombay
- Set up one of India's first Bromine plants using indigenous technology at Gujarat which was later destroyed due to a flood
- Subsequently, set up the firm Chem Ocean Consultant which provided consultancy, technology and engineering technologies to set up Bromine plants for other companies
- \circ ~ Then later established NCL in 1989 and has been on the Board since then
- Has previously worked with Excel Industries Ltd. In 1968-1970.
- Oversees the manufacturing, research and development and general operation and management of the Company's manufacturing units

Mr. Harin Kanani, PhD Managing Director

- Holds a bachelor's degree in chemical engineering from IIT, Bombay and a Master's degree and a doctorate in chemical engineering from the University of Maryland
- Served as a research fellow at the University of Maryland, where he has published 4 first author manuscripts in the field of chemical engineering
- o Presented various talks and presentations at national and international conferences
- Also participated in the Small and Medium Enterprises Programme from IIM Ahmedabad
- Joined NCL in 2008 and is on the Board since 2017
- Has previously worked with companies such as Asian Paints India Ltd. and as a senior research scientist at Pioneer Hi-Bred International Inc. in the United States
- Heads various business divisions of the Company including research and development, business development, quality control, purchase, marketing and finance

Mr. Anurag Surana Non-Executive Director

- Holds a bachelor's degree in commerce with Honours from the University of Delhi
- Experience of more than 20 years in Contract Manufacturing business
- A well known personality in the Agrochemical and specialty chemical industry in India, Europe and Japan
- Founded a consulting company specialising in consulting with companies in the chemical, agrochemical and fertilizers sector in India and abroad
- Previously, he was an Executive Director on the Board of PI Industries Ltd. for 14 years

Shyamsunder Upadhyay Executive Director

Holds a master's degree in science from Vikram University, Ujjain

- \circ $\,$ He has 41 years of work experience in the field of chemicals
- Oversees maintenance, projects, logistics, administration and engineering store in the company
- Has previously been associated with companies such as Savita Chemicals, Wimco, Gharda Chemicals, Clariant India, Tytan Organics Limited, Arch Pharmalabs Limited and Laxmi Organic Industries Limited

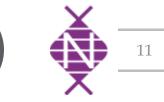

Ketan Vyas Chief Financial Officer

Is a fellow member of the Institute of Chartered Accountants of India, MBA and has completed his Project Management Professional Certificate from (PMI) USA in the year 2013

- He has 22 years of work experience in the field of Finance & Accounts, Taxation/ International Taxation across industries, Corporate Banking, Audits, Corporate & Commercial laws and other Regulatory and Statutory compliances
- Other expertise lies in Strategic Planning, Budgeting & Cost Control, Financial Reporting & Management, Process Re-engineering, System Integration and Solution Design
- Has previously been associated with companies like Batliboi, Arcelor Mittal Projects India Private Limited, SGS India Private Limited, Integreon Managed Solutions, Dow Corning India Private Limited, Rhodia Chemicals India Private Limited and Amplas Polymers Private Limited,

Competitive Advantages

Experienced promoters with domain knowledge

Established and stable relationship with suppliers

Large and diverse

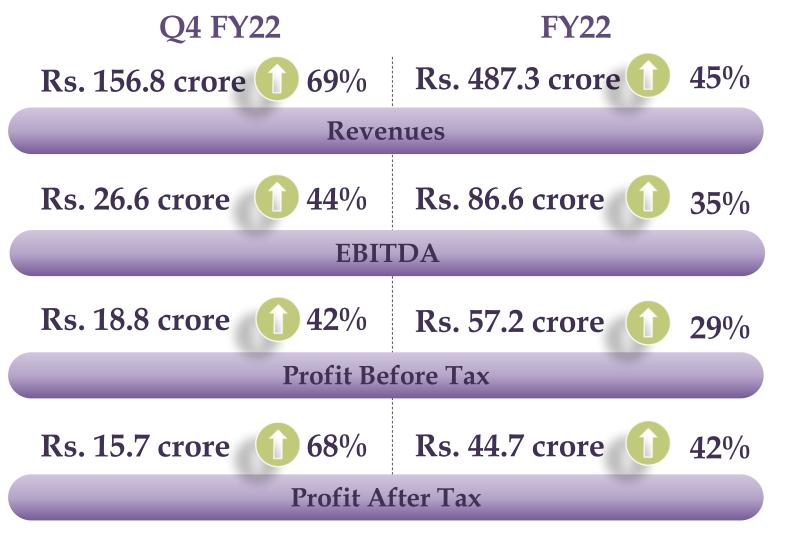

Specialised Business Model with high entry barriers

Continuous Investment in R & D

Strong Manufacturing Capabilities

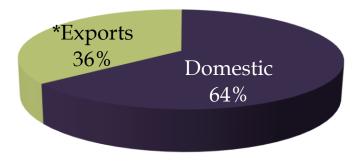

Diversified and Stable Customer Base

Key Performance Highlights – Q4 & FY22

The Board of Directors approved a final dividend of Rs. 2.75 per share (27.5%) for FY22

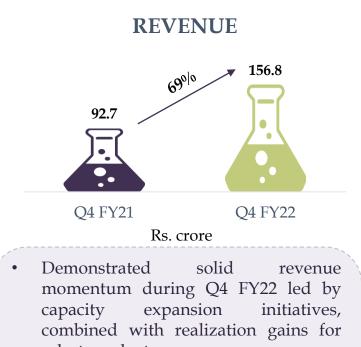

Q4 FY22 Revenue break-up

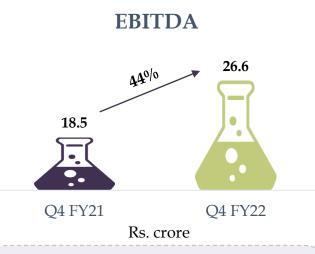

*Including deemed exports

<u>Note:</u> 1. Growth for Q4 FY22 is compared to Q4 FY21 2. Growth for FY22 is compared to FY21 3. All figures are Standalone

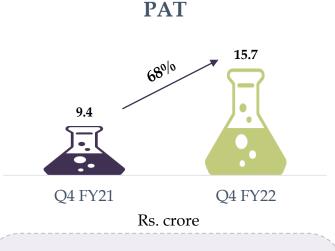

Financial Summary – Q4 FY22

select products
As envisaged, new capacities allowed the Company to focus on value-added offerings, thereby leveraging its expertise in complex chemistries

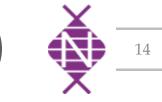

- Higher utilization levels at newly commissioned facilities as well as better product mix steered the EBITDA performance
- Margin performance must be seen in light of significant increase in RM (Lithium) prices, in addition to higher utility costs and other logistical disruptions

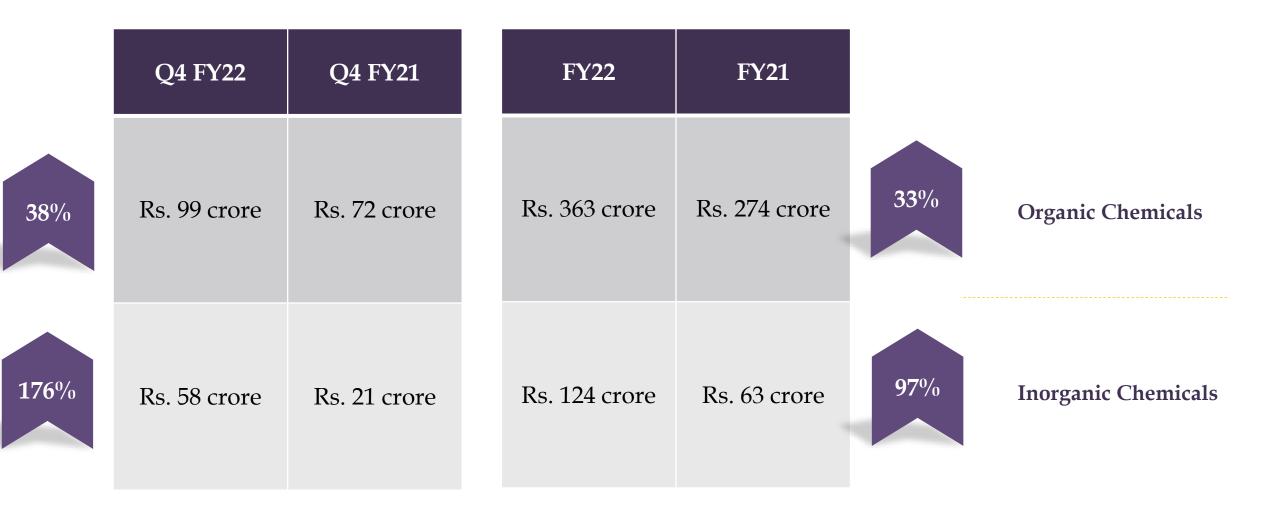

- PAT performance was in-line with operational performance of the Company, further bolstered by lower Effective Tax Rate due to higher contribution from SEZ facility
- Depreciation increased during the quarter commensurate to the newer capacities added

During the period under review, the Company faced significant volatility in the prices of raw materials linked to Lithium. As a process, these cost pressures are passed on to the customers with some time lag. While the objective is to increase the absolute earnings, there could be some margin pressure due to this time lag.

Revenue break-up – Q4 & FY22

Seasonal Variance Factors

- Neogen's business has some seasonal drivers, due to which the company tends to deliver stronger financial performance in the second half of the financial year (October to March). Seasonal variance is driven by strong demand from Europe as orders tend to scale up in October-November and further accelerate from January after the holiday season
- Demand for Lithium-based chemicals tends to be strong in Q4 as demand from the HVAC segment, a key usage area, is linked to capital expenditure that enjoys 100% depreciation benefits for airconditioning/cooling machines
- Demand from the agrochemicals segment is linked to the crop cycle and is stronger during H2
- Consequently, investors are urged to compare financial performance of each quarter only with that of the corresponding quarter previous year to evaluate business progress on a like-to-like basis

Key developments

- The Board of Directors at its meeting held on 14th May, 2022 considered and approved an estimated capital expenditure of upto Rs. 150 crore, to be deployed in FY23 at Dahej SEZ Plant for:
 - Expanding manufacturing capacity of specialty organic chemicals by 60,000 litres – to support new molecules developed in-house and enhancing ability to do multiple chemistries
 - Increasing the capacity for manufacturing inorganic salts from 1200 MT to 2400 MT in existing Inorganic MPP – this is to cater to demand from new approvals received from international customers for regular lithium-based products recently and expected growth in their demand in domestic market
 - Setting up new capacity in existing Inorganic MPP for 400 MTPA for manufacturing Specialty Lithium Salts and additives for Electrolyte used in Lithium-Ion batteries advance chemistry cells – targeted for trial approvals in international markets and captive consumption for manufacturing of electrolyte
 - Dahej site development

Expected outcome:

- Estimated timeline for completing this brown field capex by June 2023
- Once commissioned, the overall incremental revenues to be around Rs. 250 – 300 crore per annum.
 Out of this, revenues from Inorganic Chemicals is estimated based on stable lithium prices
- The Company expects full utilization by FY25/ FY26

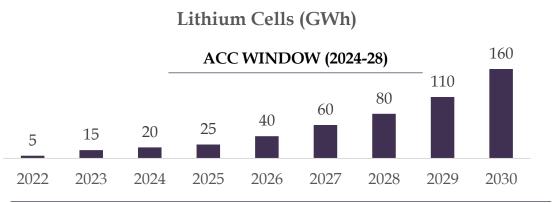

Strong Opportunities in Lithium Battery sector

Government focus on self-reliance in battery manufacturing has opened up new prospects

- After inviting global bids for giga-scale Advanced Chemistry Cell (ACC) production units, the GoI selected four bidders from ten for allotment of 50 GWh of battery capacity which include Reliance New Energy Solar Ltd., Ola Electric Mobility Pvt. Ltd., Hyundai Global Motors Company Ltd. and Rajesh Exports Ltd.
 - They will receive incentives under India's Rs. 18,100 crore programme to boost local battery cell production
- The battery manufacturers would have to set-up ACC capacities under PLI scheme within a period of two years
- This will lead to direct investment of around Rs. 45,000 crore in ACC Battery storage manufacturing projects
- o PLI scheme is expected to accelerate EV adoption
 - Will translate into net savings of Rs. 2,00,000 crore to Rs. 2,50,000 crore on account of oil import bill and increase the share of renewable energy at the national grid level

Demand Estimates for the Indian Market

Source: India Energy Storage Alliance

This will translate into Electrolyte demand of >150,000 MT by 2030, as per Company estimates.

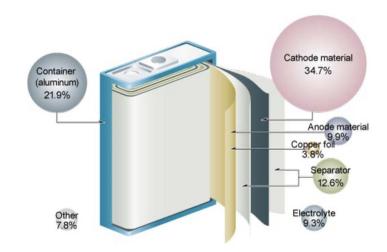

Neogen's planned initiatives in the Lithium Battery sector

- Development initiatives under process for:
 - Electrolyte Formulations
 - Electrolyte Lithium Salts
 - Specialized Cathode Materials
 - CSM and advanced intermediates opportunities
- Portfolio of battery application products at quality/efficiency optimization stage, prior to commercial scale up
- Positive demand evaluation discussions with >15 potential cell manufacturers, including overseas players for electrolyte and >10 international customers/ distributors based out of Europe, Japan, Taiwan and Korea interested in electrolyte salt
- Electrolyte production plan at Vadodara unit developed following board approval:
 - 250 MT to be operational in FY23
 - Commercial scale plant for Electrolyte and Lithium Salt production for captive consumption to be set up based on customer commitments and approvals
- 400 MTA plant for Lithium Electrolyte Salt / Additives production capacity in existing MPP to be set up at Dahej unit to meet international demand and initial captive consumption, further expansion to be planned subject to international customer commitments and approvals

*Based on literature as an example, actual % will vary

Financial Table – Profit & Loss Statement (Standalone)

(Rs. In crore)

Particulars	Q4 FY22	Q4 FY21	Growth (%)	FY22	FY21	Growth (%)
Revenue	156.8	92.7	69 %	487.3	336.4	45%

Balance Sheet Snapshot (Standalone)

Particulars (Rs. crore)	As on March 31, 2022	As on March 31, 2021
<u>Assets</u>		
Non-Current Assets	306.3	251.5
Current Assets	493.1	240.6
Total Assets	799.3	492.1
Liabilities		
Shareholders' Funds	439.3	183.1
Non-Current Liabilities	141.9	131.0
Current Liabilities	218.1	177.9
Total Liabilities	799.3	492.1

- Total Debt (after including current maturities of long-term debt) stood at Rs. 225 crore in FY22
- Net Debt (after including current maturities of long-term debt) stood at Rs. 99 crore in FY22

Management Commentary

Commenting on the Q4 & FY22 performance, Mr. Haridas Kanani, Chairman & Managing Director, at Neogen Chemicals said:

"We are glad to have concluded the year on a high note despite unprecedented challenges posed by inflation in raw material prices and utility costs, as well as supply-chain disruptions. We have navigated through all these shocks by staying nimble and sharpening our focus to create a high-quality enterprise with unmatched execution capabilities. During the year, we scaled new heights and achieved our revenue benchmark by growing 45% over FY21. Profitability metrices mirrored the momentum in revenues, further bolstered by manufacturing efficiencies and prudent cost management.

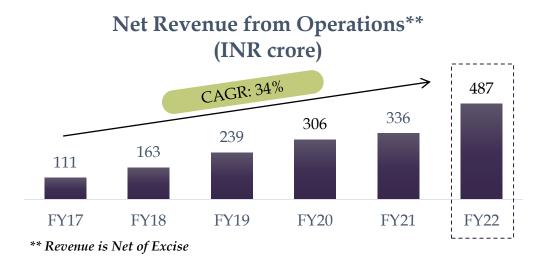

In a key development, we have announced an estimated CAPEX of upto Rs. 150 crore, to be deployed in FY23 at Dahej SEZ for multiple growth initiatives across both Organic and Inorganic Chemicals. This expansion is based on recent approvals and strong interest in our regular Lithium products, Electrolyte Salts and additives in International market and expansion of our chemistry capabilities to continue focus on advance intermediate and CSM business.

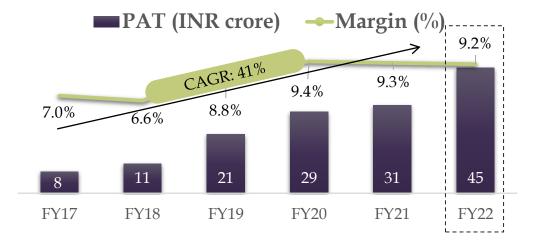

Our newly commissioned organic MPP plants (Phase I & II) are now stabilizing with sustained improvement in utilisation levels thereby giving us the confidence of achieving the revenue potential of Rs. 725-750 crore as targeted in FY24 on stable lithium price basis. As planned, we are executing orders that are more customised in nature and goes through multi-stage processes with complex chemistries involved. On the other hand, we are satisfactorily progressing with our pilot plant initiative of electrolyte manufacturing for lithium-Ion batteries. In the interim, we are closely studying the market for battery materials and evaluating promising opportunities in the sector.

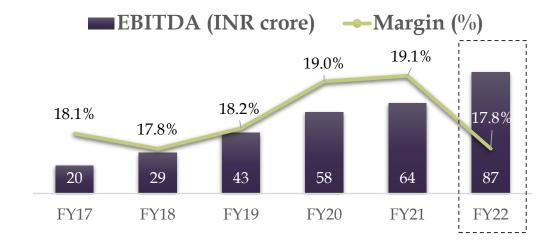

Overall, we are very well poised to capture incremental demand and have the fundamental levers in place to boost our business proposition and realise the growth aspirations. Our objective is to profitably maintain our growth trajectory while creating value for all our stakeholders."

Historical Financial Trends

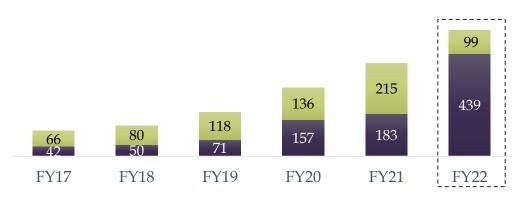

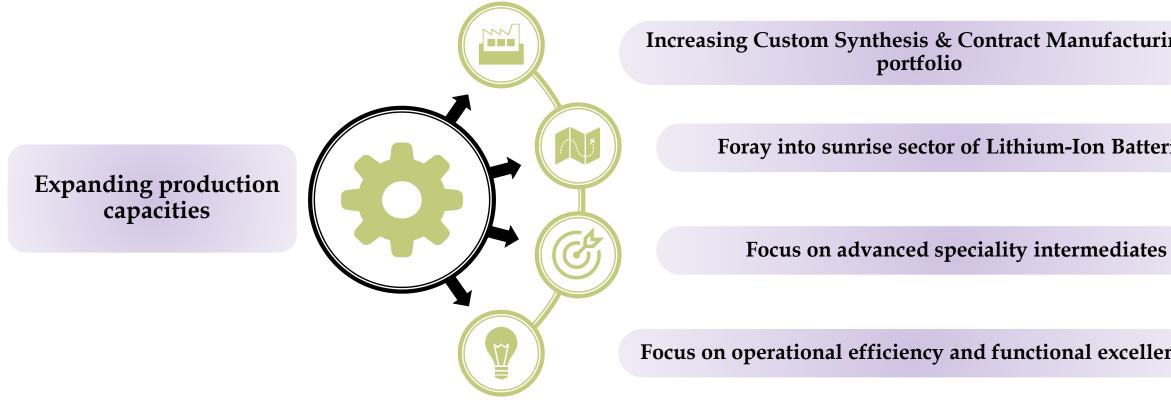

■ Networth (INR crore) ■ Net Debt* (INR crore)

* Net Debt includes preference share capital and current maturities of long-term debt

Way Forward

Increasing Custom Synthesis & Contract Manufacturing

Foray into sunrise sector of Lithium-Ion Batteries

Focus on operational efficiency and functional excellence

About Neogen Chemicals Limited

Incorporated in 1989, Neogen Chemicals Ltd. (NSE Code: NEOGEN; BSE Code: 542665) is India's one of the leading manufacturers of Bromine based and Lithium based specialty chemicals. Its specialty chemicals product offerings comprise Organic as well as Inorganic chemicals. Its products are used in pharmaceutical and agrochemical intermediates, engineering fluids, electronic chemicals, polymer additives, water treatment, construction and aroma chemicals, flavours and fragrances, specialty polymers, Chemicals and Vapor Absorption Chillers original equipment manufacturers with new upcoming usage in lithium-ion battery materials for energy storage and EV application. Over the years, Neogen has expanded its range of products and at present, manufactures an extensive range of specialty chemicals which find application across various industries in India and the world. It has a product portfolio of over 233 products.

In addition to manufacturing specialty chemicals, Neogen also undertakes custom synthesis and contract manufacturing where the product is developed and customized primarily for a specific customer, but process know how, and technical specifications are developed in house.

The Company operates out of its three manufacturing facilities located in Mahape, Navi Mumbai in Maharashtra, Dahej SEZ, Bharuch and Karakhadi, Vadodara in Gujarat.
